Exciting Opportunities in 2016...

The successful launch of the DOOD and TOOT opens up new markets for retailers and a whole new learning opportunity for kids. Now we can teach woodwind fundamentals as early as 4 years old with instruments that excite kids and without burning too much of the school budget.

The jSAX is another innovative creation from the Nuvo design studio enabling kids as young as 5 years old to develop sax skills while experiencing the joy of making music. It's so much fun to play... for adults too!!

WindStars continues to grow with sign-ups from all over the world coming in every day while fun new music in different genres is added to suit Nuvo instruments. You can learn more on page 30.

Finally, whether you're an independent music retailer or a school looking to implement a Nuvo program, we'd love to hear from you and work together to achieve our goal... *more kids making more music!*

I'm looking forward to hearing from you.

SOPRANO RECORDER

NUVO Soprano Recorders have a modern look and feel which appeals to children. They have a resonant tone and are available in black, and in white with three color options to brighten up your recorder ensembles.

The three rubber rings on the bell are removable and can be used as a reward system as children pass learning milestones.

NUVO recorders are 100% waterproof so they can be washed frequently with warm soapy water. Each recorder includes a case and a fingering chart.

Removable Reward Rings

The NUVO TOOT is the sister instrument of the DOOD. For a child ready to progress from the recorder, this is the perfect next step to ultimately playing the flute.

The set includes the NUVO Firstnote lip plate which can be used in the early lessons while the student is learning posture, fingering and playing simple tunes. When the student is ready, the Firstnote lip plate can be replaced by the regular lip plate

The TOOT and DOOD together can bring a whole new sound to the recorder ensemble and give younger children the chance to learn important woodwind skills.

The NUVO DOOD is a brand new concept for single reed music education. A natural next step for a child playing the recorder, the DOOD is a great way to introduce single-reed skills at an early age and is a great addition to any recorder ensemble.

The DOOD has recorder-like fingering with a simple yet durable key system that helps small fingers cover the holes. The instrument is fully chromatic over one octave with extra notes in the second register.

The DOOD uses the same mouthpiece and reed system as the Clarinéo and jSAX. Two NUVO resin reeds, a fingering chart and a case are included. Fully waterproof and dishwasher safe.

The NUVO jSAX opens up whole new opportunities for kids to take up the sax at an early age.

The jSAX follows traditional saxophone fingering patterns and enables kids to develop embouchure and tuning skills. It has a surprising mellow sound and is a lot of fun to play even for an accomplished amateur sax player.

The jSAX is pitched in C like all other NUVO instruments so it can play all WindStars music (see page 30). It has a fully chromatic range from middle C to G in the next octave.

While the curved instrument is perfect for kids, some adults may find the straight option more comfortable. The “Straighten your jSAX kit” provides a straight neck and bell to transform your jSAX.

The standard kit includes moulded case and carry strap.

RE

KIDS

“ I discovered NUVO by accident and the instruments turned my world around. Both the sound and quality of the instruments is amazing. It provides a lot of young students the chance to experience the world of music through woodwind instruments at a low cost. It's a vision I've always dreamed of. ”

Peter Peitersen
COPENHAGEN • DENMARK

The NUVO Clarinéo is a clarinet in the key of C and is ideal for young starters ages 4 to 12 years. It is much lighter and smaller than a B \flat clarinet which means the finger stretches are shorter and the tone holes smaller: great for small fingers! When the student is ready, the transition to B \flat clarinet is quick and easy.

The Clarinéo has a rich, mellow tone and can play from any score in the key of C such as recorder, piano, flute and voice music. This makes it particularly useful for elementary general music programs.

Two synthetic reeds and a cane reed are provided with the Standard Kit.

“The NUVO Flute has the chance to change music education as we know it in America. These low cost, low maintenance instruments allow for younger and less advantaged students to begin music study - two segments of public school children who have not typically had access to arts instruction.”

Kristy Kirsh
LEXINGTON · KY

The NUVO jFlute has a smooth and resonant tone. It is lightweight, durable and features an easy-blowing lip plate—the perfect choice for a child’s first flute. Suitable for ages 4 to 10 years.

The jFlute also features a curved head joint, left hand key extensions and is upgradable to a straight head flute when the student is ready. See jFlute upgrade kit.

The jFlute kit includes the firstnote lip plate, a recorder-like fipple to encourage students in the first few lessons.

The jFlute is 100% waterproof so it can be washed frequently and won’t get damaged if played outside in the rain!

STUDENT FLUTE

“The NUVO flute produces a full and resonant tone with impressive intonation in all registers. These qualities along with its lightweight make, colorful keys, easy maintenance and inexpensive cost make the NUVO flute an ideal instrument for beginning students.”

Dr. Cassandra Eisenreich
MIAMI • FL • USA

The NUVO Student Flute has been highly acclaimed by teachers and professional musicians around the world. As well as being a perfect instrument for a young starter, it also makes an exciting alternative flute for a hobbyist or accomplished flute player.

Give it a try! You will be surprised and thrilled by the loud and responsive tone. The NUVO weighs around half the weight of a traditional flute and is extremely durable and easy to maintain.

Truly a flute for all occasions...tramping in the hills, gigging at the local pub, down at the beach or even in the pool! The NUVO is equally at home at the concert hall or on the marching band field.

Keep it out! (KIO)

Many music teachers like to encourage their students to keep their instruments assembled, out of the case and ready to play. This facilitates more frequent practice and even spontaneous performances! We have developed a couple of neat accessories which work for both the flute and the Clarinéo.

NUVO DESK STAND

This neat, single instrument desk stand is suitable for the NUVO Student Flute, jFlute or Clarinéo.

STOCK CODE N260FCDS

NUVO WALL HANGER

The single instrument wall hanger can be easily fixed to a wall, door or shelf using 4 screws or double sided tape. Suitable for the NUVO Student Flute, jFlute or Clarinéo.

STOCK CODE N260FCWH

NUVO Reeds

NUVO REEDS

NUVO synthetic reeds will last up to 10 times longer than traditional cane reeds. They feature a locating rib which helps the student to correctly position the reed on the mouthpiece.

Available in 3 strengths and suitable for DOOD, Clarinéo and jSAX. Sold in packs of 3 as shown.

Flute Accessories

The NUVO flute range has been designed to allow a student to start as early as 4 years old and keep the instrument for life. There are a number of useful accessories included with the instrument and optional accessories shown on the following pages.

NUVO FLUTE CURVED HEAD JOINT

The curved head joint is a useful accessory for a young starter who wants to play the Student Flute but may have some difficulty with the stretch in the early days. Available in black or white.

jFLUTE UPGRADE KIT

The jFlute upgrade kit includes a straight head joint and a c-foot joint. It also includes a replacement fitting for the jFlute case. This means that a student who has been using the jFlute can now upgrade to the student flute without buying a whole new instrument. Available in black or white.

NUVO Spares Kits

The spares kits have been developed to enable a teacher or dealer to keep a range of spare parts that may need replacing. All NUVO instruments can be repaired and maintained by someone with reasonable mechanical skills and not necessarily with years of experience in repairing instruments.

The keys for the NUVO flute and Clarinéo snap on and off and for the flute.

The repairs and maintenance section on the NUVO website has a number of PDFs explaining some of the simple steps to dismantling and repairing our instruments. If you encounter any problem that can't be fixed please send an email to max@nuvo-instrumental.com explaining the problem and include some photos.

FLUTE SPARES KIT

The flute spares kit includes a range of spare parts including key caps, pads, grease pots, lip plates, screws and screwdrivers. It also includes some spare cleaning sticks and pull-throughs.

STOCK CODE N250SKDL

CLARINÉO SPARES KIT

The Clarinéo spares kit includes fingering charts, pull-throughs, pads, o-rings, ligatures, mouthpieces and caps. For any additional spare parts required, please contact us directly.

Acrylic Retail Displays

ACRYLIC RETAIL DISPLAY

The POP7 display can hold any mix of recorder, DOOD and TOOT and makes a neat, eye-catching display to maximize impulse purchases.

STOCK CODE POP7DTDP

ACRYLIC RETAIL DISPLAY

The jSAX acrylic display holds 3 jSAX and makes a striking display without taking up too much space.

STOCK CODE POP3JS

ACRYLIC RETAIL DISPLAY HORIZONTAL

The POP4 display holds any mix of jFlute, Flute or Clariné positioned horizontally as shown.

STOCK CODE POP4IDP

ACRYLIC RETAIL DISPLAY VERTICAL

This versatile display with a small footprint can display any mix of jSAX(straight), Clariné or Flute and creates a striking NUVO display without taking up too much counter space.

STOCK CODE POP3IDP

School Storage

A number of schools we have been working with run classes for groups of children where the children do not own the instruments. A full set of instruments is kept in the classroom and the children arrive at class and pick up an instrument to be used for that class. It saves a lot of time at the beginning and end of class if the instruments are kept out of cases and on storage racks. Mouthpieces and head joints are usually removed from the instruments and disinfected between classes or in some cases the children own their personal mouthpiece or head joint which they bring to class.

There is a news item on our website which describes this kind of class arrangement. If you are interested in starting a class and would like to discuss ideas please feel free to contact max@nuvo-instrumental.com.

SCHOOL WALL HANGER

The school wall hanger can accommodate up to 6 instruments and can be attached to a wall or shelf using 4 screws or double-sided tape. The clips work for Clarinéo and Flutes.

STOCK CODE N260WH06

SCHOOL DESK STAND (24)

This school desk stand can accommodate up to 24 instruments, any combination of DOOD and TOOT.

SCHOOL DESK STAND (12)

This school desk stand can accommodate up to 12 instruments, any combination of Clarinéos, jFlutes or Flutes.

STOCK CODE N250DR12

NUVO
WINDSTARS

NUVO WindStars

The NUVO WindStars program creates real woodwind ensembles in elementary schools, with amazing results.

NUVO has been working with acclaimed composer, Paul Barker to create music suitable for all NUVO instruments from first steps level to debut through intermediate. Within each level there is a variety of styles and genres including jazz, classical, reggae, pop, rock and hip hop.

Playing together as NUVO WindStars provides a unique early opportunity to experience the joy of ensemble playing with all the social and musical benefits it brings. WindStars also provides an opportunity to introduce different music genres and styles to children, igniting a lifelong love of music and providing the perfect platform for moving on to high school band.

SETTING UP A NUVO WINDSTARS PROGRAM

Schools can set up a WindStars program using any of the NUVO instruments depending on the budget available and the ambition and ability of the teachers and children. A simple recorder program can work well for up to 30 children and then DOOD, TOOT, jSAX, Clarinéo and jFlutes can be added as the children progress.

For the DOOD, TOOT, jSAX, Clarinéo or jFlute, NUVO can supply neat desk stands that hold up to 24 instruments. This is a great way to speed up the beginning and end of each WindStars class as instruments are kept out, assembled and ready to play. See page 28 for storage options.

NUVO WINDSTARS MUSIC AND iPad APP

WindStars music can be downloaded from www.nuvo-windstars.com. Downloads include the full score for teachers as well as individual parts for the students. Also included are MP3 backing tracks which can be played on any MP3 player as well as through our free NUVO WindStars iPad app. The app allows teachers and students to manage backing tracks and hear and play along with the individual parts.

Ambassadors Around The World

Bill is an award winning Canadian jazz and Latin flutist of exceptional calibre.

“The NUVO flute is a brilliant idea. It enables kids to cultivate an early interest in the flute which can then evolve into a greater musical commitment as they get older. They can also simply have fun with it and without their parents having to make a significant financial commitment from the start. I must say that the instrument plays remarkably well. It is not a ‘toy’. It is a real flute!”

Bill McBirnie
TORONTO • CANADA

Sophie is a woodwind teacher for Hertfordshire Music Service. She teaches saxophone, flute, clarinet, recorder and fife to children and adults of all ages.

“I love the NUVO flute and Clarinéo. They make learning a realistic possibility for younger children because they are lightweight and easy to hold. They are easy to look after and the best thing is they actually sound good too!”

Sophie Boden
HERTFORDSHIRE • UK

Kelly Williamson is a flutist and registered Teacher Trainer with the Suzuki Association of the Americas. She is invited to teach at workshops all over the world, including Latin America, Australia, England and Tanzania.

“The tone quality of the NUVO flute was really an astonishment the first time I tried it. My students have had a great time this summer playing it in the pool, in fountains, sharing fun experiences with their friends. What a treat!”

Kelly Williamson
CAMBRIDGE • CANADA

Derek, originally from Scotland, teaches in Sydney schools and from his flute studio in Lane Cove. In 2010 he started “Flute Connections” which provides professional educational workshops in Sydney and regional NSW.

“I discovered NUVO flutes. This instrument is child friendly, works and is affordable. I have many students playing these great instruments now and with the addition of the coloured key inserts make the kids the FUNKY kid in the band.”

Derek Galloway
SYDNEY • AUSTRALIA

Christen Stephens has been a flute teacher and performer for over fifteen years. She has a degree in music education and studied flute under international soloist, Mark Thomas.

“The NUVO flute has a sweet and almost woody tone quality with a full, projecting sound. It’s also surprisingly light and comfortable to hold. I highly recommend the NUVO flute for beginning flute students and adult hobbyists alike”

Christen Stephens
BROOMFIELD • CO

David is an active woodwind teacher, repair technician, and performer. He has the best job in the world because his days (and many of his nights) are filled with music!

“The Clarinéo’s smaller size and lighter weight make it ideal for children who are too small to play the clarinet. It uses standard clarinet fingerings so transition to the clarinet is easy. It sounds great, requires very little maintenance and is surprisingly durable.”

David Bradley
TEMECULA • CA

Susan Clark has been a flute teacher and performer for over 40 years.

“I am amazed at the possibilities for the NUVO flute. The tone is clear and responsive, the key action is amazing, and the light weight of the instrument makes it possible for a student to study flute at a very young age, while learning all correct flute fingerings, tone, and posture. I highly recommend the NUVO flute.”

Susan Clark
ANTIOCH • CA

Molly studied flute and music therapy at Temple University. She is passionate about teaching and recently began the Kinderflute™ certification process under the direction of Kathy Blocki.

“I bought a jFlute on a whim and was so excited to hear the nice sound it produces. Even my teenage students want one! I love that they can be left out because I encourage my students to play in short intervals, finding they practice more that way.”

Molly Shortridge
HARRISBURG • PA
